Online Mode

STEP **1** Apply for MSAT/Direct Admission on our website www.matrixedu.in

STEP **2** Fill In The Relevant Details

STEP **3** Talk To A Counselor On The Phone

STEP **4** Pay Fees & Start Attending Lectures

Option -2

Offline Mode

STEP **1** Visit our Campus

STEP **2** Take MSAT (Matrix Scholarship and Admission Test)

STEP **3** Discuss with Counselor

STEP **4** Deposit Fees & Start Attending Lectures

DETAILED DESCRIPTION

Concept

The Pre-foundation program is primarily designed for students who want to build a strong base by learning concepts in depth, which is not usually done at the school level. Along with preparing students for competitions like NTSE, IJSO, NSTSE and other junior olympiads, special focus and attention is also given to logical problem solving in all the subjects, which helps in all the aspects of life for the student.

The primary goal of the foundation courses is to provide students an effortless development from school and board exams level to competitive level of study and preparation with optimal speed. The Entire module is properly structured and extremely detail oriented by taking care of the smallest level of details and leaving no scope for uncertainty.

DESCRIPTION

Phase 1: Building Concepts

In this phase, the curriculum is taught by expert and passionate teachers in an effective manner, by using the latest tools and techniques for visualization, experimentation and hands on practice. The study module developed by Matrix encompasses detailed theory, insights on the concepts and practice questions relevant to not just school exams, but also competitive examinations like NTSE.

Phase 2: Rigorous Practice

All the learning is supplemented with adequate practice and frequent testing. Concept wise tests are conducted to evaluate the learning of the students. The analysis provided after the tests is unmatched and helps students identify their weak spots and remedy them, as well improve

their performance. Multiple avenues for clearing students' doubts are also provided to students.

Phase 3: Final Exams

The whole syllabus once taught, is revised as per a proper plan. Leading upto Olympiads and school examinations, several major tests full syllabus tests are conducted, which help students revise the whole syllabus in a systematic manner. The performance of students is measured, monitored and discussed with students to help them improve their standing in a competitive environment.

KEY BENEFITS

- Expert and qualified team of experienced and passionate faculties.
- Detailed study material, with all the important concepts and lots of practice problems for school as well as competitive examinations.
- Special importance to Mental Ability (Logical Reasoning) useful for competitive examinations not just for school, but also for several career exams.
- English Proficiency support - High quality set of English questions for several Junior Olympiads
- MATLAB Online Support, including Mobile App and Matrix Lab Facility - Access to library of video lectures from top MATRIX faculties for doubt clearance, missed-out lectures and/or repeating lectures.
